Dear Parents & Carers,

### Scooters & Bikes

The children have been riding their scooters and bikes for the last couple of weeks and in most cases, this has worked well. Unfortunately, there are some children who dash around the playground at speed, without due care for other children on the playground. This is compromising the safety for all children.

We will be implementing the following rules to keep everyone safe:

- Children will only be allowed to ride their own bike or scooter – we recognise that our children are generous in their nature. However, this rule is necessary to prevent children injuring themselves on equipment that is not the right size for them. We are also mindful that bikes or scooters could become damaged by children who they do not belong to.
- Children **must** wear a safety helmet when riding their bikes or scooters.

Well done and thank you to children who have been sensible over the past weeks. We want to keep this privilege in place for the children however, the safety of all is paramount.

Kind regards

Ms D Brown  
Headteacher
