

Maths

- Adding and subtracting decimals with different decimal places.
- Multiplying and dividing decimals by 10, 100 and 1000.
- Recognising decimal sequences, comparing, and ordering decimals.
- Telling the time to the nearest minute.
- Calculating time intervals.

YEAR 4/5 NATURAL DISASTERS

SUMMER 2022

English

This term we will be looking at journey stories and how to include correctly punctuated speech in our writing.

We will also be looking at letter writing and explanation texts of an invention of our own design.

Science – Forces

- We will be looking at and exploring forces, such as gravity, friction, and air and water resistance.
- We will be working our allotment and watching the natural growth of plants as we learn to care for them.

Computing

Coding

The children will be learning how to program the speed, direction and co-ordinates of objects in a game when creating their own apps. They will also have a chance to practise all of the apps and lessons at home.

RE

What helps Hindu people as they try to be good?

How do Christians decide how to live?

PE

- Dance – We will be looking at the Haka and we will be devising our own version based on moves from rugby.
- Rounders – We will be learning the skills of batting, fielding and teamwork as we play rounders.

PSHE – Living in the wider world

We will explore:

- Why we have laws and how they are made
 - Human rights and the rights of the child
- Anti-social behaviours and how to challenge them
 - Respecting difference and resolving conflict
 - What it means to be part of a community
- How finance plays an important part in people's lives

Topic

Our topic this term will be Natural Disasters. We will be studying how and why various natural disasters occur and the impact they have on the human population of different countries. We will also look at what natural disasters we have or may experience and how they compare with other places around the world.
