

# Reception Spring 1

## KIRF – I can recall number bonds to 5.

This half term, the children will be exploring the composition of 5 and finding parts that make 5 altogether. The aim is for the children to develop fluency in recalling these number bond facts instantly.

What can this look like?

### Key Vocabulary

- 5 is made from 5 and 0.
- 5 is made from 4 and 1.
- 5 is made from 3 and 2.
- 5 is made from 2 and 3.
- 5 is made from 1 and 4.
- 5 is made from 0 and 5.

### Things to try

**Sing counting songs** – Practise singing counting songs such as 5 little speckled frogs or 5 currant buns.

**Paper chains**– Use two different colours to make paper chains to show each number bond, for example 1 + 4 could be shown as 1 green link and 4 blue links.

**Hands**– Make the number bonds to 5 using your fingers.

Other Maths skills to practise at home:

**Counting, matching and ordering** — Practise counting amounts, matching amounts to corresponding numerals and ordering amounts and numerals (1-5).
